METRIT CHEMICALS PVT LTD

Company Profile.

Metrit, was established in 1976 by Mr. Kirit Vora, a Chemical Engineer from University Department of Chemical Technology-Mumbai. In this journey of 36 years, he is ably supported by Mr. Ritesh Doshi-a Chemical Engineer from Mumbai University and Mrs. Arpita Doshi also a Chemical Engineer from Mumbai University.

During this journey Metrit has developed entire range of Phosphating chemicals and many auxiliary specialty chemicals. From 1987 Metrit decided to set up a plant division under the name of M/s Supreme Fibre Glass Pvt Limited. In Supreme we manufacture Effluent Treatment Plants, Pickling Tanks, Fume Exhaust Scrubber, Ducts, MS Tanks, SS Tanks, Storage Tanks, Polypropylene Tanks, PP Liner, and many more products relating to surface treatment industries.

Metrit Chemicals Pvt Limited is ISO 9001-2008 certified company.

This group has strong base in Gujarat, Madhya Pradesh, Maharashtra, Karnataka, Andhra Pradesh, Goa and Tamil nadu, We have our own office at Mumbai, Bangalore and Coimbatore. We have dedicated laboratory for surface treatment chemicals relating to Phosphating, Powder Coating and Electroplating, at Mumbai.

Metrit is operating around 400 plants for Phosphating and surface treatment in central and southern India. Some few plants are also located in Jaipur, Delhi, Goa, Mangalore and other places.

In 2003, Metrit established a factory in Coimbatore for Manufacturing of Electro static powder coatings under the name of M/s. Akarsh Paints Pvt Limited. This factory is being run by the Director Mr. K Shivakumar a Mechanical Engineer from Coimbatore.

This group has highly experienced team of Sales Managers and Technical Persons to provide strong Technical support at every corner of India.
